Drafting parenting plans in custody cases involving alcohol: a guide for family law attorneys - Regrettably, many families deal with alcohol misuse and abuse. According to the 2019 National Survey on Drug Use and Health, 14.5 million people ages 12 and older (5.3 percent of this age group) had Alcohol Use Disorder (AUD). AUD is a medical condition characterized by an individual’s inability to control their drinking, despite the negative impact it may have on their personal life, professional life, or health. Unfortunately, and all too often, children get caught in the spiral of this medical condition.
